

Abstract no line painting

Jinan

Abstract no line art

This kind of painting really depends more on the shading and the color pallet. It's an abstract paint. It's so easy to look at because the shades are close to each others and without lines. People often use this kind of art in rooms or restaurants because it's soft and easy on the eye. You can make it more trippy and add more vibrant colors. This kind of art really stricts blending.

Steps

Materials

Get paint and start by painting the object make sure not to blend the colors.

Paint
Canvas
Brushes
